MAÏA

WE ARE HUMANS

# **RACISM THROUGH HISTORY**

In “English Project”, we worked on the different forms that racism could take, particularly on the Apartheid, that the movie « Invictus » illustrates majestically.

## Invictus

Invictus is biographical sports film directed by Clint Eastwood. Mandela assisting at match between the Springboks. Mandela saw that some black in the stadium are supporting England and not their own country because the Springboks are mostly white and represent the prejudices of the apartheid in their mind. Then Mandela met Francois Pienaar the captain of the Springboks and say victory in the world cup will inspire the nation. Things began to change, the players created links with. Fans the Springboks left Durban for then France and qualified for the final against the All Blacks. Then Francois decided the jail. What was imprisoned Mandela. Finally the Springboks won against the All Blacks and are now the rugby world champions. At the end we hear a voice who recite the poem "Invictus".

The atmosphere that reigned in South Africa at the end of apartheid in the early 1990s is perfectly recreated and we feel projected into this historic period for South Africa.

OPINION

The movie was a bit too long and passages would have been more interesting shortened.

# « Leave Us » - song :

## Verse 1 :

Take our gun  
Find our job  
Walk me home  
Will be gone  
But somehow  
Don't need that  
Just you will have to

## Chorus :

Leave us, leave us,  
We are humans  
(I) don't think it would be sad for white humans  
It would be bad to fight  
We were supposed to die for you  
White community, you have to  
Let us breathe  
To leave us for life

## Verse 2 :

We wish that life will take us back,  
We want to win to free the Blacks  
Guns down, slow down before we're down  
Something horrible makes you turn around

## Chorus

<https://youtu.be/kzKcA7HwCXU>

## Bridge :

We have blood around our scars but we're living  
Some white people can't see we are existing  
So dark, I light your fears  
I know where to go  
I got colors on me  
I got something on my forehead  
We go pray and learn to the church  
We just want to know :  
Why are you so petty ?  
Take all of our jobs, take all of our money  
Fool everyone, fool every pieces of me  
You will think we were lost, don't underestimate me  
We found the light, that's why we're staying and praying

## Coda :

We must fight to protest for our people who feel apart  
We need to erase Apartheid for good  
We'll create a new world for our future  
To pray for the death of those who taught us something good  
Let us forget evil, we are black people (x4)

Mahery.
